

Automatic folding barrier gate(CMD806)

Main Features

1. Manual release
2. Machine core with compression spring, effectively avoids the accidents caused by spring breaking
3. Die-casting aluminum alloy motor, precision and good at thermal radiating
4. Motor cooling fan, solving the problem of heat-protection
5. Double safety limit switches (photo electricity limit switch/motor memory sensor)

PRODUCT SPECIFICATION FOR FOLDING BARRIER GATE	
Model NO.	CMD806
Power Supply	220V AC 50Hz
Rated Power	120W
Motor Power	90W AC
Max. Boom Length	6m
Time for Open/Close	3s (for 3~4m), 6s (for 5~6m)
Environmental Temperature	-20°C~50°C
Protection Level	IP55
Material of Barrier	Aluminium Alloy
Certification	ISO9001:2008 CE SGS
Size of cabinet	1050*268*348mm
Gross Weight	65KG
